1956

BLACK & GOLD

FOREWORD

We are again presenting to you a yearbook, "Black and Gold", from the Steinbach Collegiate Institute. It has been prepared in the hope that it will serve as a means of enjoyment to you, our parents and friends.

It is also our sincere hope, and belief, that this yearbook will, in future years, bring back pleasant memories to you who have spent this year at the S.C.I.

Preparing this year book has been in many ways a difficult task but it has been enjoyable and beneficial. I would in particular like to thank for their help the staff advisor, Mr. John Peters; the assistant editor, Pat Mueller; the business manager, Edmer Reimer; the advertising manager, Gerald Reimer; the circulation manager, George Rieger; and last but not least, all our advertisers.

The Editor.

Mr. W. D. Kornelsen (Sec.-Treas.), Mr. S. B. Rieger (Chairman), Mr. J. Kruetzer, Mr. A. B. Rempel, Mr. Wm. P. Wiebe, Mr. E. J. Friesen.

Message from the School Board

It has been said that education is an economical method of assisting an initially ill-adapted individual, during the short period of a single life, to cope with the ever-increasing complexities of the world. Commonly speaking, we are restricting the term "education" to those adjustments made by the immature individual through the special institution of the school. Of late, much criticism has been directed at the learning processes found in the schools of our province. Many maintain that our children are not receiving as good an education as they deserve. If this is true, then we must either contrive to make education more effective or we must be satisfied with a simpler civilization.

To you who graduate, we say that you have chosen wisely in completing your high school studies, in spite of some apparent shortcomings in the programme. You have learned not only with but by each other.

It is to be lamented that so many drop out too early and thus fail to help raise the standards of society.

We congratulate you on your effort to publish another yearbook. Though the purpose of the school is to provide something more worthwhile than memories, yet your schooldays will remain forever a part of you and your lives. They should be memories not only of childhood escapades but of effort and accomplishment, shared with others, and directed and encouraged by interested and able teachers.

In the years which lie ahead of you, always remember that to a great extent you will be the masters of your fate. Success or failure, joy or sorrow, good or evil; these things are largely in your hands. May these few years which you have spent in school help you live lives that are rich, full of meaning, and of service to your fellow men.

STEINBACH COLLEGIATE INSTITUTE

Instruction is offered in the following courses:

1. The General Course including Jr. and Sr. Matriculation and Entrance.
2. The following options:
 - (a) Commercial — Typewriting and bookkeeping.
 - (b) General Shop — Grade VII to XI.
 - (c) Home Economics — Grade VII to XI.

The Collegiate has an adequate library, a well equipped shop, and an attractive home economics room.

INSPECTOR'S MESSAGE

It is a real pleasure for me to have this opportunity of placing a "message" in the current issue of the Steinbach Collegiate Yearbook. May I first of all extend greetings and best wishes to the Black and Gold for a successful year.

The service rendered by a collegiate institute such as you have in Steinbach is becoming increasingly more important with the passing years. The complexities of living and of making a living have become much greater than they were when your parents were students at school. It is well if you think about this occasionally and attempt to assess the value of the contribution your collegiate life and training have made, and is making, to life and living. Much of what you learn from books will not long be remembered. Cold scholarship is a lesser achievement, but the fact that you do labor and strive in co-

operation with others to achieve scholarship leads to greater development such as character, personality and intellectual interest and ability. Your daily associations with your teachers who know you well contribute more than you will probably ever realize toward these greater achievements. As students you learn to work and play together, that is you learn to live together. Thus you become citizens, better equipped and more able to make a greater contribution to the world community of which you are a member. Your Collegiate is opening the doors of opportunity for you, and when you graduate may you be able to say "It has been good for me to have been here."

To all, graduates and students, I wish success and happiness.

J. W. Muirhead.

PRINCIPAL'S MESSAGE

Another school year has almost run its course. Let us pause briefly to indulge in a little reminiscing.

The year 1955-56 was a year filled with activity, a year in which we attained some goals we were working for, and also a year that had its quota of disappointments and moments where we had to acknowledge defeat. But, all in all, it was a good year.

Though I am not by nature too lavish with praises, at this time permit me to hand out a few bouquets. I want to thank my colleagues for their fine cooperation throughout the year. All the teachers were willing to go the 'second mile' when an extra duty was pushed their way. Because of you the year was a success.

Then, also, I am grateful to you, the students. In the name of the teaching staff I can tell you that it was a pleasure for us to work with you, and for you. Honest effort,

on your part, though not necessarily always successful, was really appreciated. I have very much enjoyed working with the different executives of the Student Council in their various endeavors. The McLean-Hunter magazine selling campaign, the sports events, the literary activities, the socials, and this Yearbook testify of your zeal and cooperation.

This year our enrollment almost reached the two hundred mark. We worked in seven classrooms, the Shop and Home Economics Department, and in addition thirty-one typewriters were intermittently tickering out monotonously uniform music. Truly, our school was a hive of activity.

In closing, I wish you luck for the final hurdle, the approaching June examinations. May the work we did this year make us more capable to render to our communities the services they will expect of us, and may we be prepared to pass those Grand Finals which no man will ever be able to bypass.

The President Speaks

At the termination of any phase of a person's life, it is natural for one to look back and review the period just passed, and to measure, as it were, the successfulness of one's efforts.

As I view in retrospect the extra-curricular activities of the Steinbach Collegiate Students' Association, since my first year in high school, I cannot but feel a certain amount of satisfaction in our attainments, during this span of time, and particularly during this past school year. Our various projects and activities such as the MacLean-Hunter Magazine Plan, literary, socials, inter-school sports and the spring play have all been successful. That these various functions have been successful suggests the fact that by working together we have achieved some-

thing much more valuable than only the financial gain realized by our magazine selling campaign or the enjoyment of a social function — co-operation. The co-operation we have learnt at the S.C.I. this year, will help to make us better citizens of our country and our community.

I would like to take this opportunity to thank all of you for the fine school spirit you have exhibited. Working together with you, your council and committees, has for the most part been a pleasurable experience.

Finally I would extend to my fellow graduates, as well as to those of you who have not yet completed your high school education, my sincerest good wishes for success in whatever vocation you enter. May each of us take advantage of the opportunities for service to our Maker and to our fellow men.

Gerald F. Reimer.

Graduates

AT THE CROSSROADS

You to the left and I to the right,
For the ways of men must sever —
And it well may be for a day and a night,
And it well may be forever.

One ship sails east
And another sails west,
While the selfsame breezes blow
'Tis the set of the sails and not the gales
That determine the way they go.

Like the ships of the sea
Are our human ways
As we journey on through life
'Tis the set of the soul determines the goal
And not the joy or the strife.

Valedictory . . .

Mr. Chairman,
Honored Guests,
Inspector Muirhead,
Ladies and Gentlemen:

In every person's life there comes a time when he interrupts his duties to reflect on the past and ponder over the future. This is particularly beneficial in that from past mistakes and disappointments we may alter our principles and aims to insure the moulding of a stable character and the selection a career which will bring happiness to both, ourselves and others. Therefore, with our departure from the Steinbach Collegiate Institute imminent, this is a fitting time to do just that.

The early years of our education are times to which we look back with nostalgia. Though we may not fully realize it, many characteristics and ideals were assimilated during that early formative period, both at home, in church, and at school. This graduating class may have been scattered over a wide area, but teachers were busy cramming facts and figures into our little heads, complementing them with the occasional word of praise or disapproval. Since that time, however, we have matured considerably, our convictions and guiding principles, have become more ingrained in our characters.

During the past year we have shared many happy, occasionally frivolous, but on the whole, profitable times together, both after and during school hours. There was, for instance, the day when everyone came to school, dressed so nattily as to attract attention. And we did attract attention — what with the boys wearing rainbow-hued neckties "matched" with many-colored shirts and large suspenders. All our fun and frolic, however, was not comprised of originating nightmarish concoctions of that kind. Before Christmas the entire class enjoyed itself at a banquet, followed by suitable entertainment. Then, too, there was the crisp winter evening when the sleigh ride was held. When we view the year in retrospect we must not forget the work of the Student Council, the various committees, and the I.S.C.F., for, being the seniors, we quite naturally supplied much of the leadership. These, then, are the activities which will long remain synony-

mous with our last year at the S.C.I.

Although we have apportioned some of our time for extra-curricular activities, we have spent hours mulling over mathematical problems, delving into the hidden mysteries of the chemical world, absorbing the inspirations of great authors, and tracing the past events of human history. Through all this we trust, that we have learned something to prepare us more adequately for our life's voyage.

You, our parents and friends, are at the gang-plank wishing us a pleasant voyage. The ship which we are boarding represents the medium by which we hope to fulfil our ambitions or reach the port. This will entail the selection of a career or vocation which is an important step in life. To my fellow graduates I would like to give this advice: Once you have made a definite decision regarding this, stay with it, and strive mightily for it. As an example we might consider one of O. Henry's humorous characters, James Turner, who was on his feet all day, working in a hat-cleaning establishment. His conception of happiness was different from those which we might harbour, but he clung to it, even though a multi-millionaire offered to be his benefactor. What was his idea of bliss? Why, he would take off his shoes and socks, place his burning feet against the cold bars of his iron bed and was happier than any millionaire ever could be.

There are a number of things we must keep in mind during this voyage. The crew, i.e. our friends and advisers must be true and faithful ones, for when storms brew, they will be very valuable. Then last of all there is One who is the most valuable man on board, the Captain, who guides the ship through all difficulties. May our Captain be the One who says: "I will instruct thee and teach thee in the way which thou shalt go . . ."

In closing I would like to extend a vote of thanks to parents, teachers and schoolmates for making this graduation possible, to all of our worthy guests and to all of you friends for making it a success and lastly to my fellow graduates who bestowed upon me the opportunity to deliver this valedictory.

Edmer Reimer

Gerald Reimer

Gerald is a cheerful, good-natured fellow, who always has a smile for everyone. His energetic nature enables him to take an active part in extra-curricular activities, besides keeping up with his duties. Gerald served as Vice-President for the first term. During the second term he was President and did a very good job as Advertising Manager for the Yearbook. His Saturdays are spent in Winnipeg where he works for his father at "Reimer Express Lines." As to his future plans — time will tell!

Henrietta Reimer

Henrietta is an industrious student who takes her subjects seriously. She is inclined to philosophize on humanity and things in nature. She has sound ideas and often expresses her opinions in class. She takes delight in finishing her English assignments to the minutest detail. This skill is made good use of in her editing of the Collegian. Henrietta is also active in the I. S. C. F. organization and on the Social Committee. Her immediate plans for the future are to go to Normal School, then to become a missionary teacher.

Edmer Reimer

Edmer is an all-around good student and is generally well-liked. He spends much time on extra-curricular activities. He was President of the Student Council during the first term and Vice-President in the second term. On the Yearbook Committee he served as Business Manager. In his studies he does well and deservedly won the Chamber of Commerce Scholarship for highest marks in Grade XI. His capacity for hard work and his knack for speech-making has earned him the honored role of valedictorian. Edmer is also a great sport enthusiast. Though many responsibilities are thrust upon him, he retains a uniform weight throughout the year. His brilliance seems the proper requisite and augurs well for his future career of lawyer.

Elaine Loewen

Elaine is a dark-haired, well-groomed, attractive girl who has been with us now for two years. Her home is in Twin Creek and she drives back and forth every day. In her studies she does quite well and her favorite subjects are German and Mathematics. She has decided opinions on different subjects, is never stuck for words, and expresses her ideas freely. During the first term she was the Social representative for her class. If her present ambitions materialize we may in a year or two from now find her in some schoolroom teaching the three R's and what goes with them.

Gilbert Friesen

Gilbert is a tall, blond gentleman and the bespectacled genius of our class. If anyone has some mathematical problem, he is ready to solve them. During the second term election campaign Gilbert revealed his poetical talent, and has been dubbed "poet-laureate" of the S. C. I. Now he takes order for poems to suit any occasion. Being musically inclined, he takes and gives piano lessons after school hours. He may not star on the rugby field, but he certainly shines in Composition. Though of a taciturn nature his speeches make sense and reveal the thinker. We are quite confident that he will not bury his talents, for he intends to take several years of university training.

Shirley Rempel

Shirley is a tall, comely, young lady with a friendly disposition. Gifted with a fine soprano voice, and being musically inclined, she has often served as soloist at Christmas and Easter programs. Shirley participates in many activities, having served as treasurer for the Student Council of both terms, as well as the Assistant Editor of the Collegian and class representative on the literary committee. Her hobbies are reading and skating. As to her plans for the future — she intends to continue and round out her education at a Bible school.

Helen Paley

This dark, dimpled young lady usually wears a smile which makes her quite attractive. Her home is in Pansy, and she has been with us for two years. Her friendly disposition helps her to make friends easily and she keeps them too. Jokes, funny or otherwise, are always sure to be supported by her hearty laugh. Helen has a very important position in our school, and her absence causes anxiety and apprehension in class — you see, she is our official bell-ringer. She is not quite decided as to her future, but next year may find her in Normal School to prepare for teaching.

Gordon Kreutzer

Gordon is one of our more sports-minded students with a friendly personality and a liking for jokes. He takes an active part in extra-curricular activities and has been class representative both terms. Though he tries to keep up with his homework occasionally it is not done. He excels in physics and maths. One of his most used expressions is, "That's right." He has a lot of ambition but hasn't decided what he will do in the future.

Henry Pankratz

Henry Pankratz

Henry has been attending the Steinbach Collegiate since Grade X. He finds pleasure in the solving of mathematical puzzles. Active in sports, he participated in the Manitoba High School Curling Bonspiel. Class humorist that he is, we can envision him as future television comedian. Seriously though, he plans possibly to teach for a year and then to begin studies for the position of a chartered accountant. Though he is tall, Henry is usually heard before he is seen. He is one of the prime movers of class-room activities.

Anne Wiebe

Annie is a quiet, hard-working student. A sport enthusiast, she particularly enjoys baseball and hockey games. She missed one year of school before returning to complete Grades XI and XII. She likes knitting, reading, symphony, and baking chocolate cakes. Some day, she will be a very sufficient nurse. She plans to enter training right after her completion of Grade XII. Although she takes her work seriously, she does not lack a lively sense of humour. Among her favourite subjects in school are Drama and Poetry and Novel and Composition.

Martha Block

The ray of sunshine in our class is Martha. Upon her entrance into the classroom she dispels gloom. She takes active part in class discussions and willingly offers her own opinions. For the first term she capably served as class representative and as social convenor. For the second term she was re-elected social convenor and Student Council secretary. Martha had a year of teaching experience before she enrolled for Grade XII and found it enjoyable. She plans to attend Normal School next fall and thereafter become a school "marm". Her cheerful nature will certainly help her to succeed in that vocation.

Ernie Toews

Ernie is a tall fellow who occupied a seat in the back of the room and enjoyed "needling" Sylvia. He participates in numerous sports including football, hockey, curling, and crokinole. He also took part in the Manitoba High School Bonspiel. Being a sports enthusiast, he served on the Sports Committee during the second term. He enjoys playing the trumpet in his spare time. Considering his interest for working with electrical appliances, we may well assume that his career will be along that line.

Robert Shelby

Robert comes from Arnaud and manages to get home only about once every three weeks. He is short, dark, and quiet. Although he does not waste many words, his answers prove that he is a deep thinker. Robert is a conscientious student and usually has all his assignments well done. His favourite pastime is reading. He enjoys sports, like curling, skating, and hunting. He is not sure about his future plans, and at present is interested in joining the air-force.

Shirley Churchill

Shirley comes from Piney where she received her previous schooling. She is a quiet girl but is very friendly. Her favourite subjects are Drama and Poetry. Shirley takes her Grade XI French by correspondence. Her hobby is reading. During recesses she is often seen with Martha Goertzen. Shirley goes home with the Fort Francis bus but her Dad has to bring her back early Monday morning. "Is she any relation to Winston Churchill?" "Sure he's her brother!" (That is, a young Winston at Piney) Shirley plans to become a teacher.

Sylvia Rieger

Sylvia is a blue-eyed lass who lives across the street from the school. She is a hard working young lady, who always has her school work done. She excels in mathematics, but does not like chemistry. Her favorite hobbies are skating and reading. She is the Grade XII class representative, secretary of the I. S. C. F. organization, and the editor of the Yearbook. You always find Sylvia in the thick of things when such events as socials, play-performance, Christmas or Easter programs or just plain MacLean Hunter campaigns are brewing. This explains why she has no time to get into mischief.

Walter Schroeder

Walter is a friendly chap, with a deep bass voice and a pleasing personality. His dark wavy hair is always well groomed. He is quite often seen coming to school in his Dad's Plymouth. Good at sports, he specializes as a quarterback in rugby. German to him is an easy subject, but still he claims he doesn't like it. He has not definitely decided what he will do after he graduates, but his interests lie in the field of aviation.

Kenneth Oswald

Kenneth Oswald

Ken is generally known as "Ozzie". He comes from the country and drives back and forth every day. Though he is but seldom heard in class, he is always seen, as he is one of the taller members of our room. This is the third year he is with us, and his friendly disposition and pleasing personality make him well liked by teachers and classmates. In his studies he is fair. History is a favourite subject, but Maths he cannot much appreciate. His ambitions for the future he has not divulged to us.

Martha Goertzen

Martha is a tall and friendly lass, who decided to return to the Collegiate and finish her last two years of high school after a year's absence. Coming from Lorette, she prefers the country to the town. Of the sports Martha favors curling. In school her favourite subject is German, at which she shows considerable skill. Her plans for the future are to attend Normal School and then to enter the teaching profession.

Virginia Brown

Virginia is one of our attractive looking students who is blessed with lovely brown hair and a charming smile. Her quiet but congenial personality makes her presence delightful. Meticulously and conscientiously she prepares her assignments. We are proud of her, for she ranks first in class. Reading and sketching are her hobbies. Being gifted in sketching, she serves as artist on the Yearbook Committee. She intends to take University training and to specialize in scientific research. The calibre of her work during her years in Junior and Senior High School augurs well for her and we are confident that she will make a success of further studies.

John Goossen

John lives on the outskirts of town, and so he has quite a walk every morning. He manages to coincide his walk to school with Ken Oswald's drive, thus speeding up his arrival. Being of a cheerful disposition, he takes most everything as a joke. "That's easy", is his pet expression. Beware of his smile, for it's catching. His dreamy look is deceiving, for when it comes to 'brass tacks', John knows his "stuff". His hobbies are reading and stamp collecting. If his ambitions for the future materialize, he may visit town businesses as accountant some day.

Glenn Keating

Glenn is a friendly fellow always ready to lend a helping hand, whenever one is needed. He enjoys his four mile homeward journey each day. Occasionally he has been known even to walk it. Scholastically, Glenn prefers English. Glenn's hobbies include sketching and oil painting in addition to letter writing. We understand he corresponds with no less than a dozen pen-pals. As for a future vocation, Glenn is undecided though the scope of a possible choice ranges from a farmer to a world traveller.

Glenn Keating

Arlyn Reimer

Arlyn is a well liked, friendly girl, who is known as Kathy by her friends. She has represented our class on the Sports Committee for both terms this school year. She has also been class representative on the Year Book Committee, and has served as the secretary of the same. Her hobby is collecting stamps. In school she enjoys typing, but Maths is just too much for her. Arlyn plans to work next year and after that she wants to become a nurse.

Warren Kroeker.

Warren Kroeker 17

Warren's home is near Lorette. He has a friendly, happy-go-lucky nature, and boasts a brush-cut. He is a sports enthusiast, enjoying such athletics as football, hockey, and curling. Most of his time in school is spent in the Grade eleven room, but he takes German, History, and Drama and Poetry in Grade twelve. His pet peeve seems to be German. One of his jobs during the first term was to represent the Grade XII's on the Social Committee. Warren may have an ambition, but his future plans are as yet unannounced.

1. How much does it cost?
2. Girls
3. Three's a crowd
4. To work, to work!
5. Off the broom
6. Revenge

Classes of '56

Tis Education forms the common mind
Just as the twig is bent the tree inclined.

"When a new idea occupies a vacant mind
it has a glorious time."

"The past is like a bank where an unlimited number
of ideas have been deposited to our credit."

Grade Eleven - 1

Harold Radke

Harold is a tall lanky fellow with black hair. He likes sports, his favourite being football. His ambition is to become a pilot in the Royal Canadian Air Force but he is undecided whether he will further his education.

Mervin Brandt

Merv takes an active part in sports and was the first term sports convenor. In the spring play he was one of the "odds" and "ends". He is well liked and somehow finds the time to get his assignments done. Besides this he is a trumpeter in the local band.

Jim Schellenberg

Jim is a cheerful young man who thoroughly enjoys all outdoor activities and spends much of his time at the curling rink. He seems to find no difficulty doing his physics problems.

Clarence Mantie

Clarence just loves a good joke, although sometimes it would be better if he didn't. He is often heard stating his opinions during literature discussions. Stamp collecting is his hobby.

Clarence Giesbrecht

Clarence is fond of sports, particularly hockey and baseball. He studies diligently and is rewarded accordingly in times of "testing". His future beyond Grade XII is indefinite.

James P. Penner

James loves to read and is good at his schoolwork. Mathematics is his favourite subject and stamp collecting is his hobby. He is fortunate enough to miss school some winter days when the roads are closed. After completing his education he would like to work in an office.

Walter Hiebert

Walter is called "Hiebert" by everyone. He drives from the farm every day. He's a "jolly good fellow" and takes life easy, but intends to finish Grade XII.

Myron Smuk

Myron is a sports enthusiast, who enjoys playing hockey. He usually has his assignments done. A taxi brings him to school every morning. He is well liked by everyone. His ambition is to become a star hockey player.

Maurice Pylypiuk

Maurice lives in Trentham and comes to school in a car every day. His favourite subject is typing and his favourite occupation is getting into quarrels with Myron. He enjoys hunting and fishing.

Ben Penner

Ben comes from Moray and goes home for the week ends. He enjoys going to school and usually has his homework done. He is very enthusiastic about sports, especially hockey. He enjoys singing.

John Dyck

John came back to school after a few years of absence. He takes an active part in sports. His favourite subject is German. When he is through school he wants to be an accountant.

David Peters

David is a quiet likeable young man, who takes part in most sports, especially hockey. He works hard at his studies, and makes good marks. His hobby is collecting sports pictures.

Pat Mueller

Patsy Mueller

Pat is the only female to be found in this class, where she studies? physics. She enjoys curling. Since she participates in most literary activities, she acted in the spring play this year.

Walter Thiessen

Walter is a cheerful boy who lets himself be heard during the history periods. He enjoys all outdoor sports, including curling. Arriving at school just before the bell rings, he greets his friends with a big "Hello". Usually most of his homework is done. His ambition is to finish high school.

Dave Heinrichs

Dave's motto is, "Better late than never" since he joined us shortly after Christmas. He had been attending Bible school at Three Hills. He is friendly and takes an active part in all literature discussions. Some people think he is lucky because he does not study geometry.

Vernon Friesen

Vernon does not believe in the saying "Silence is golden." Building model airplanes and swimming occupy his spare time. His favourite expression is "Waut frat daut?" His ambition lies in aviation.

Ernie Peters

Ernie is a likeable chap, who has many friends. He comes to school every morning from the country. Though he takes part in all sports he excels in hockey, baseball, and rugby.

Werner Rempel

Werner is one of the tallest boys in our class. He has a knack of getting into "hot water" with his rhetorical questions. His ambition? . . . undecided.

Jake Epp

Jake is one of the younger members of the class. He played the part of Lord Brocklehurst in the spring play. Reading and skating are his favourite out-of-door activities.

Ernest Dueck

Ernest is a jolly member of the class, and usually has all the answers. He loves mathematics. After the completion of Grade XII he hopes to enter the teaching profession.

Jim Reimer

Jim usually wears a big friendly smile and does his best to keep the back of the room cheerful. His hobbies are playing rugby and going for long rides in the car. Typing is his favourite subject. His ambition is to be a railroad conductor.

Gerald Goossen

Gerald is a curly-haired friendly chap, who takes part in most sports, but enjoys hockey best. Maths is his favourite subject. His future profession is not certain, but quite likely he will go into engineering.

Glenn Klassen

Glenn has shown by his high marks that he is in school for a purpose. He likes reading and listening to the radio which seems to account for his intelligent views in arguments. Being dramatically inclined he has played the leading roles in both the spring and the Christmas plays.

Travis Reimer

If Travis is not at his desk studying conscientiously, he is making up a new curling schedule or attending a council meeting. He wants to go into engineering. Like many of his friends, he plays in the local band.

Jeffrey Wiebe

Jeff entered the Collegiate after Christmas. He expects to make his Grade XI but not without doing a lot of homework. During and out of classes he frequently voices his opinion, and is known to thoroughly enjoy the congenial atmosphere of the school. He is a graduate of the P. B. I.

George Rieger

George is a tall and dependable chap. His school activities include such things as a role in the spring play, the I.S.C.F. presidency, and membership on the school hockey team. After-fours and on Saturdays he works in his dad's garage.

Cornie Rempel

Cornie spent four months in B. C. but came back to finish this school term. Even though he takes part in most school activities and plays hockey, he manages to do his homework.

Helmut Friesen

Helmut is likeable and easy to get along with. He spends quite a few evenings of the week at the skating rink. Tinkering with mechanical devices is his favorite hobby.

James R. Penner

James enjoys curling, tennis, swimming, chess, and jokes. He is the class comedian and is continually keeping us from doing our school work. After completing his Grade XII he hopes to go into the grocery business.

Memories

As the school year closes
And our worries o'er,
We shall recall the pleasures,
Which we will have no more.

Those English classes bring to mind
A host of various topics,
From "Romeo and Juliet"
To essays, poems and novels.

Oh yes, and all those Mathematics classes
By which our mind was to be trained,
And yet, I do recall the time
The elastic snapped, our mind was
sprained.

But oh, those dear old German periods
When Schweitzer's philosophy we learned

The words! Their meanings such a chal-
lenge,
That oft the midnight oil was burned.

To mind there come those History periods,
When notes we took with unending zeal.
But when the examinations were corrected,
Our weak self-effort was revealed!

The Chemistry course was the other
subject,
With its matter very explosive.
Beside defining and experimenting,
There was much formula composing.

But we must hurry onward.
The closing bell has rung!
The echo of it brings to mind
That our work here is done!

Martha Block

Grade Eleven - 2

Erna Heier

Erna is one of our out-of-town students. Usually quiet, she still enjoys a good joke. She tries hard to have her homework done. Her favourite pastime is listening to orchestra music and operas. Ambition-stenographer.

Clarice Bartel

Clarice is our second-term class representative. Her cheerfulness and friendliness is shown in her willingness to help anyone in need. After some years of practical nursing she came back to school to take her Grade XI. Her ambition is to become an R. N.

Gerda Reimer

Gerda is short, blonde, and blue-eyed. She is cheerful and enjoys a good laugh. Recently she has acquired a pair of spectacles and claims that they improve her vision. Her hobbies are skating, swimming, and singing. Lately she took up curling.

Wilma Regehr

Our auburn-haired Wilma is a friendly little lass whose favourite subject is literature. She finds it necessary to collect her "belongings" from various parts of the room at the beginning of classes. Somehow she always gets her homework done. She is our future "Lady with the Lamp".

Shirley Loewen

Shirley is one of the girls with natural curls. Two of her favourite pastimes are reading and skating. Her interests lie across the aisle. She is addicted to homework, but homework does not keep her from taking an active part in church activities.

Adina Andres

Adina is a tall, blonde lass who enjoys skating and Saturday nights. Occasionally she parks her father's car in the ditch. She enjoys balancing chemical equations and listening in on lively German classes. She is well liked by all.

Irene Neustaedter

Irene is noted for her contagious laugh. She indulges in homework, but when skating rolls around, you are sure to find her at the rink. She chums with "out-of-school" kids. Irene lost her be-spectacled look after Christmas. What happened to your glasses?

Doris Paley

This girl, imported from Pansy, takes Home Ec. and enjoys cooking and sewing. She is a good-natured girl with a pleasing personality and sparkling blue eyes. Her ambition is to become a teacher.

Bertha Rempel

Bertha is a quiet brunette who comes from "jand Sied". She does light housekeeping with her sister. She doesn't go home for week-ends unless she wants a holiday on Monday, because it is sure to storm if she ventures so far from school. Her ambition is to be a teacher.

Alvina Reimer

Alvina is energetic and scholastic. She was the first term news editor of the Collegian. Her hobbies are typing, reading, and collecting stamps. Her Remington noiseless keeps the family awake till all hours. Ambition - stenographer.

Iris Oswald

Iris is a blond whose bright, cheery smile can be seen from the other side of the room. She likes boyish haircuts, and all sports, especially hockey, baseball, and horseback riding. She enjoys life on the farm but can't figure out why cows have to be milked.

Cecilia Borsa

Cecilia comes from Sarto and enjoys light house-keeping with a roommate. She is a hard-working student with a friendly disposition and a contagious laugh. Ambition - teacher or a stenographer.

Maxine Baldwin

Maxine is a short, blonde lass who comes from the Otterburne district. Frequently she makes pilgrimages across the border to replenish her wardrobe. She is very fond of sports, especially baseball and volley ball. She has a friendly disposition. Her favourite school subject is Home Economics. Her ambition is to be a stenographer or teacher.

Elsie Wedel

Elsie is a quiet girl with many hobbies. She considers an hour piano practice as good as a rest. She is a popular baby-sitter. We have come to the conclusion that her brains are due to the fact that her birthday falls on the same day as Goethe's. Ambition - teacher.

Helen Kroeker

Helen is a vivacious, well-liked young lass who supplies much of the humor in our classroom. Due to other interests (not homework) she gave up skating. She ate pork and beans for a month while her parents were in Florida. "Life is far too serious an affair to talk seriously about."

Olive Wohlgemuth

After a few years of practical nursing, Olive has come back to school to take her grade eleven in preparation for nurses' training. She is tall and dark and has a lovely complexion. Her cheerful disposition is enjoyed by all.

Eileen Enns

Eileen is one of the shorter members of our class. She is quiet, friendly and enjoys a good joke. Her favourite pastimes are reading and corresponding with pen-pals. Somehow she always manages to get her homework done. Her present ambition is to be a teacher.

Alfrieda Klassen

Alfrieda, blond and blue-eyed, comes from Arnaud. She is a quiet girl who is usually most cheerful at 8:45 a.m. Cooking for herself and her brother is no problem to Alfrieda since collecting and trying new recipes is one of her hobbies. Her favourite subject is Chemistry.

Winnifred Koop

Winnie makes an ideal "Little Red Hen". She is small — but look out! She is friendly and well liked by everyone. Recently she has acquired a new nickname - "Win-a-ford-coupe". One of her favourite hobbies is skating.

Elfrieda Engbrecht

"Fritz" loves homework, raw carrots and Thursday nights. Every morning she dashes in three split seconds after the bell has rung. She often listens to the teacher during classes and always has her homework done . . . well, most of it anyway. She enjoys hiding other people's chairs. Her neighbor appreciates her valuable aid during Algebra periods. Her ambition is to get her R. N.

Della Reimer

Della is an ambitious student. She attended Bible School for one year and last year took her grade ten in B. C. This quiet miss is dark and brown-eyed. Her ambition is to become a missionary.

Lorraine Regier

Lorraine is a quiet congenial lass. She says little but knows much. "Lorry" lends a helping hand to those in trouble. She was class rep. for the first term. Her favourite pastimes are skating and singing. She takes an active part in church activities.

Hildegard Enns

Hildie, our congenial diminutive lass, was "Tweeny" in the spring play. She enjoys swimming, playing the piano, and literary activities. She baby sits and does homework in her spare time. Her ambition is to get a driver's license (backseat or otherwise).

Joyce Dueck

Joyce is a tall brunette whose good looks suit her fine personality. She is always wearing a smile and has good "taste" in dress. Her likes are hamburgers with all the trimmin's, peddle pushers, ice-skating, and boys who aren't too athletic but who enjoy sports. She dislikes Chinese food and shoes. Her hobby is oil painting.

Lois Peters

Lois, our "Beautiful Brown Eyes," is friendly and well-liked by everyone. Her long tresses are the envy of the girls. She thinks that there is a fire every time the bell rings. She is frequently snowed in at her home in Stuartburn.

Phyllis Penner

Phyllis is a lively, likeable miss who enjoys skating, singing, and week-ends. She is our I. S. C. F. representative, is active in the sports committee and curled in the bonspiel. Next year she intends to go to Bible School and then enter nurses' training.

Ruth Oswald

Ruth, who is shy, quiet, and understanding, isn't the talkative type. After-school hours are spent with girl pals, Iris and Joyce, or in studying. She likes to watch hockey games and T. V., play baseball and go on "clothes-shopping" sprees.

Der Unterschied zwischen der kanadischen und der deutschen Schule

Als ich im Dezember 1955 nach Steinbach kam, wusste ich schon durch Erzählungen und Berichte, dass ich andere Schulverhältnisse vorfinden würde. Bereits bei der Einschulung machte sich das für mich bemerkbar. Wenn in Deutschland ein Schüler von einer Stadt in eine andere kommt und damit die Schule wechseln muss, so ist seitens des Vaters eine schriftliche Anmeldung erforderlich, wobei auch die Abmeldung nebst Entlassungszeugnis von der alten Schule nicht fehlen darf. Hier wurde nichts von alledem von mir verlangt.

In Deutschland gibt es die Volksschule, Oberschule und Universität. Die Volksschule wird von der 1. bis zur 8. Klasse besucht, und dann kann man einen Beruf lernen. Aber wer die Oberschule besuchen will, der kann schon mit der 5. Klasse aus der Volksschule austreten und weiter in die Oberschule gehen. Diese hat 9 Klassen; am Schluss dieser 9 Klassen macht man sein Abitur und kann jetzt auf die Universität gehen.

Ein grosser Unterschied gegenüber der kanadischen Schule ist auch: In Deutschland hat man nicht die Möglichkeit (wie hier in Kanada), sein Studium in der Volks- oder Hochschule für $\frac{1}{2}$, 1 oder 2 Jahre zu unterbrechen. Die Schuljahre müssen dort nacheinander absolviert werden. Die Schulzeit ist in Deutschland bis 1 Uhr. Der Nachmittag

ist frei. Das ist besser als in Kanada. Aber irgend ein Ausgleich muss ja da sein, und darum ist in Deutschland auch am Sonnabend Schule. Schularbeiten sind in Deutschland mehr zu tun, weil es dort mehr Fächer gibt. Ich hatte in der 10. Klasse schon 14 Fächer: Deutsch, English, Französisch, Mathematik, Physik, Chemie, Biologie, Erdkunde, Geschichte, Gemeinschaftskunde, Zeichnen, Musik, Religion und Sport. In den oberen Klassen werden es noch mehr. Davon sind 6 Hauptfächer, für die man alle Tage zu arbeiten hat. Die meisten deutschen Schulen besitzen kein „work shop“ und auch keine Bibliothek, aber dafür eine Turnhalle. Im Winter wird Hallensport getrieben, im Sommer Leichtathletik und Schwimmen. Zweimal im Jahr bekommt man ein Zeugnis, in welchem die Leistungen aufgezeichnet sind.

Ein weiterer Unterschied zwischen den kanadischen und deutschen Schulen besteht darin, dass in Deutschland Jungen und Mädchen getrennt unterrichtet werden. In den oberen Klassen des Gymnasiums, das ich besuchte, waren seit kurzem auch Mädchen aufgenommen worden. Aber dies war bedingt durch den Mangel an Schulraum und ist im allgemeinen nicht üblich. Erst auf den Universitäten sitzen männliche und weibliche Kommilitonen gemeinsam im Hörsaal.

Alles in allem ist die kanadische Schule besser, weil ich zwei Jahre spare und es hier viel kameradschaftlicher und herrlicher ist.

Hans-Peter Jacobi

Grade Ten - 1

Marjie Bartel

Ask Marjie whom she likes and her reply will be "I like them all." She enjoys doing homework only when there is none assigned. Her ambition yesterday was to become a secretary, today a nurse, and tomorrow . . . ?

Ken Thiessen

Ken is the quiet type who is never heard during classes except when he is asked a question. He is an ambitious young man and has set his sights on the Royal Canadian Mounted Police. His favorite subject is shop.

Maria Rempel

To her great consternation, Maria finds that her name is mis-pronounced by a great number of people. Even though she usually reads a story book during study periods, she always seems to have her homework done. Her ambition is to be either a nurse or a stenographer.

Bruno Goossen

Bruno must be the type of a person who needs a lot of sleep because he always seems to be sleepy before noon, especially during German periods. He generally contributes his little part in class entertainment. When he graduates, he plans to go in for engineering.

Irma Goossen

Irma is a quiet, unassuming young lady with a sunny disposition. Being cool-headed, she faces any situation which arises, quite calmly. She loves to read, but always has her homework done in spite of this fact.

Irvin Goertzen

Irvin is friendly most of the time, but can become quite hostile if the occasion demands it. As an ardent sportsman, he divides his spare time between skating and going to hockey games.

Bob Osadchuk

Bobbie can listen to the radio while doing his homework and still get good results. Science and maths are his favourite subjects. In sports he enjoys rugby and baseball. His plans for the future are indefinite.

Helen Poetker

Helen is quite adept at scoring high marks. Her favorite hobbies are reading and gossiping with Ruth. Algebra is the subject which she enjoys most. She would like to be either a teacher or a nurse.

Donald Mantie

Tall, blonde Donald is a friendly chap who always is ready to enjoy a good joke. His hobbies are building model airplanes and collecting stamps. Don has flighty ambitions - he would like to be a pilot.

Sonya Smook

Although she resides in town five days a week, Sarto is still "Home, Sweet Home" to Sonya. She boasts a head of really outstanding auburn hair. Her hobby is playing the accordin. After she has finished school, she would like to get a job in an office.

Lydia Martens

This young lady came to Steinbach from that "far-off" place of Winnipegosis. She is quite care-free and her musical laughter is highly contagious. Her ambition is to become a teacher, and her favorite pastime is collecting high marks.

Mary Rempel

Mary, who lives in Ekron, drives to school in her father's car every day. She is a quiet, likeable girl, who is seldom seen without Esther. Mary's hobbies are reading and skating. She tells us that her favourite "subject" is recess.

Sally Pylypiuk

Sally is a friendly young lady who seems to take her studies seriously. The fact that she likes outdoor sports does not coincide with her hobbies which are embroidery and crocheting. She enjoys school so much that she would like to become a teacher.

Shirley Sterk

Shirley occupies a front seat, which more than likely is not upon her own request. Sleeping during science periods, and eating are her hobbies. She has the "loftiest" ambition of them all, and that is to marry a millionaire.

Marianne Kroeker

She has a cheerful disposition and seems to have a limitless amount of energy. Her motto is "Grin and Bear it".

Elsie Olfert

Elsie is one of the "little" girls in our class. She enjoys both skating and reading, but seems to prefer skating. Stenography is her choice for a future field of labor.

Joyce Smith

Joyce is a care-free girl who has a ready smile. Since she is one of the school's better actresses, she again took part in the spring play. Besides doing this, she is class representative on both the sports committee and the literary committee.

Ruth Hiebert

Ruth knows exactly what to do with all the many gadgets on a typewriter. She enjoys skating and reading. Her aim is to become a teacher.

Lavina Friesen

Lavina is one of the hard working girls in the class. Her pleasant laugh speaks well for her good nature. When engrossed in a story-book, she is quite happy.

Doris Reimer

Doris is a tall slim blonde who enjoys making emphatic remarks during German periods. She likes to ask questions which are quite irrelevant to the subject. Her ambition is to become an R. N.

Margaret Baldwin

Margaret occupies a seat in the front of the room from which she can quite easily hear the teacher and see the blackboard. Her favourite expression is "aw shut-up" and her hobby is conversing with Shirley.

Henry Enns

Fun-loving Henry came to us from Ekron. Although he is one of the quieter members of the class, he can usually be found in the midst of any activity. His ambition is to be a farmer.

Hilda Thiessen

Hilda is a likeable girl who is frequently seen with Lydia. She enjoys classical music and listens to it whenever she can. Although she likes Steinbach, she usually goes home to Ekron for the week-ends. She enjoys typing and wants to become a stenographer.

John Ambrosichuk

John is the smallest member of the class but manages to get the greatest amount of work done. He enjoys rugby, and, in spite of his size, makes a neat goalie on a hockey team.

Elizabeth Neufeld

Elizabeth's versatile nature allows her to enjoy giggling sessions with her pal Lydia, and also be a quiet and conscientious student. Included in her hobbies are such things as reading and playing the organ. Being a good typist she would like to see this talent reap some money.

Charlotte Thiessen

Charlotte is an enthusiastic person who always has her work done. She shines in class discussions because she is always ready with an answer. Of the subjects she takes in school she prefers literature and typing. At home her spare time is taken up with reading and embroidery.

Miriam Grienke

Miriam is a quiet girl who usually has her homework done. You will always find an amusing twinkle in her eye which tells us that she must have a good sense of humour. She plans to become a stenographer.

Bernice Oswald

Bernice is a happy-go-lucky girl who enjoys skating more than homework. Because of her cheerful disposition and sense of humour she can get along with everybody. She is interested in nursing as a career.

Frances Brandt

Frances hails from Ekron. There seems to be a definite purpose for her presence in school. She has managed to make friends with all of us. Frances has lovely blonde hair and hazel blue eyes.

Melvin Thompson

Melvin is tall, has wavy hair, and green eyes. He is fond of out-door sports and conversing with Rod. Ambition: to become a surveyor.

Dorothy Rieger

"Dot" is a cute, dark-haired, brown-eyed lass, who is full of vigor. She enjoys sports, particularly skating and curling in the bonspiel. Besides keeping up her regular school work she takes piano lessons.

Grade Ten - 2

Esther Funk

Esther is an attractive young lass with "specs". She enjoys German periods. Sports, reading books, listening to symphonic music, are some of her hobbies. Ambition: nursing.

Deanna Rieger

Deanna is a scholarly, brown-haired lass whose marks reveal her conscientious nature. She occasionally calls for help in German from Bettie. Her hobbies are swimming and eating. Ambition: to become a nurse.

Emily Hildebrand

She is known as "kitten" in our class. Emily happens to be a Gulliver among the giants. Homework and sports are her favourites. Her aim is to be a missionary.

Grace Reimer

Grace chums with Kathy, their theme song being, "I Take Bromo". An ardent debater, she does not hesitate to take sides on any issue. The spring play provided us with an opportunity to enjoy her acting ability in the role of Lady Katherine. She gets "A for efforts" (and good marks) when exam time comes around.

Rodney Thiessen

His interests are mainly hockey, football and baseball. His great love for the outdoors causes him to open windows quite frequently. Short gab-sessions with Katie are greatly enjoyed. He arrives precisely at 9:02 in the morning. Ambition - to move to the back of the room.

Elvina Funk

"Vi" is a tall, attractive girl who is generally well-groomed. She wears glasses when they're in wearing condition. If after school hours you can't find her at home you will probably find her at the skating rink.

Susan Rempel

This lass hails from Ridgewood. She is quiet and usually has her homework done. Chumming with Frances is one of her favourite hobbies.

Gloria Penner

Gloria is a lass of friendly disposition who resorts to thumb tacks when necessary. She has acquired glasses of late which bring out the deep blue in her eyes. Reading is her favourite pastime. Her ambition is to become a missionary nurse.

Audrey Penner

Audrey is one of the taller girls in the class. Her amble way of walking reveals her carefree spirit. Skating and baby-sitting are some of her hobbies. She enjoys "gab-sessions" with Gloria and Beverly.

Richard Barkman

He has many inventive ideas, and keeps "Barkman" informed. During spares he will do everything but homework. Hobbies are model building, leather work and curling. His work is generally done on time.

Bettie Hildebrand

Bettie is one of our celebrated twins - Katie's better half. She receives good marks but actually her interests vary from boy to boy. Her hobbies are swimming, skating and reading.

Raymond Loewen

He enjoys hockey, and plays for the school team. Refreshing us once in a while by opening the windows is his favourite hobby. Raymond often helps his dad, who is the local undertaker.

Joyce Reimer

She hails from Lorette. Joyce is a great sports fan and thus is a real booster to the sports minded boys of Lorette. Ambition is to be a stewardess.

Johnny Barkman

Johnny makes comparatively good marks, but gets by with little studying. Besides being one of Steinbach Huskies' better hockey players he enjoys rugby and baseball. His ambitions are as yet undiscovered.

Lois Janz

Lois is a blue-eyed, blond lassie who occupies a back seat. She is quite lively and is usually ready to take part in class discussions. She has many hobbies and has not yet disclosed her future ambitions.

Corinne Penner

Corinne, a non-resident student from "Prairie Rose", chums with Edna and Joyce. She enjoys cooking, playing baseball, and cheering the home team. Her ambition is to be a nurse.

Edna Unger

Some of Edna's attributes are, acting ability, studiousness, and a new pair of glasses. She is often seen with Helen W. She boards in town but enjoys weekends at her home in Twin Creek. Ambition - to become a nurse in some foreign Missionary field.

Henry Dueck

Henry is a big, blonde boy with a big heart. He comes from the farm and enjoys hunting. School-work delights this gentleman, especially science and geography.

Marjorie Steel

"May" has brown eyes, brown hair and brown freckles. She is a likeable girl who enjoys baby-sitting, T. V. included. Ambition - nursing.

Kathy Goertzen

Kathy's rather serious manner is deceptive because behind it lurks a great deal of fun. She loves a good joke, and shows real talent in her squabbles with Grace. Playing the piano is an accomplishment she is often called on to use in school.

Melvin Mehling

He is the smallest male specimen in our class. This is his first year at the S. C. I. and he enjoys it. If his ambition is fulfilled he will be a stenographer.

Dolores Giesbrecht

Quiet, dark-haired and pleasant, Dolores is a real asset to X-2. She enjoys baby-sitting and is no doubt very popular with her "patients". She also enjoys Kathy in a mischievous mood.

Helen Wedel

What is Helen? You can find her in books, studying, baby-sitting, writing essays, partaking in sports, and playing piano. She is tall, dark, and wears glasses. Her ambition lies in the field of teaching.

Arnold Dueck

Arnold has a pleasant, round face and a jolly grin. He wants to be a "man" when he grows up and is working towards his goal by doing most of his homework. His ambition is unknown and unadvertised.

Beverly Reimer

"Bev." is a tall, pretty blonde, who loves homework (?) and baby-sitting. When she isn't smiling she's giggling. Her favourite subject is recess.

Katie Hildebrand

She hails from Tourond and is the twin with the glasses. She enjoys a good joke. Katie often has a hard time locating her note books. Ambition nurse.

Grade Nine - 1

Edwin Bobert, Carol Friesen, Burton Barkman.

Reading across — left to right: Shirley Biedler, Robert Froese, Geraldine Barkman, Rodney Giesbrecht, Lucille Friesen, Waldie Klassen, Bernice Buss, Frank Koslowsky, Erna Andres.

Margaret Wiebe, Edmer Loewen, Thelma Funk, David Dueck, Frances Barkman, LaVern Loewen.

Martin Koslowsky, Gracie Kliwer, Elmer Barkman, Mona Dulder, Norman Friesen, Ernest Doerksen.

Brian Kliwer, Margaret Dueck, Hans Peter Jacobi, Betty Dueck, Richard Letkeman, Harold Funk, Ken Letkeman.

Shirley Biedler

Is that blonde hair naturally curly? Shirley has that artistic touch and wishes she had a mathematical touch, too. She is a good student and that pleasant personality stands her in good stead.

Robert Froese

Robert seems to have an unlimited reserve of the gray matter. We can safely say that he is the mathematician of our class — not that any of the subjects cause him much grief.

Geraldine Barkman

Gerry is a tall, winsome lass with a friendly disposition, who willingly takes the responsibility of any job that's assigned — homework or otherwise. She is an "all-around" good student.

Edwin Bobert

Edwin is tall and has that well-groomed look. That sleek black hair is rarely out of place. If it weren't for all those hard subjects, school could be so wonderful!

Carol Friesen

Carol seems very quiet, but first impressions soon change. There is plenty of energy under that quiet exterior expression. Thel and Marjorie are her inseparable companions. Her ambition is to finish Grade XII, including German.

Burton Loewen

Burt is a friendly, well-liked fellow. Those new spectacles give him that professional air. Even though all subjects aren't equally exciting, school in general is "okay". He plays the altohorn in the Boy's Band.

Rodney Giesbrecht

Rodney lives in Clearsprings, and manages to commute back and forth every day. He is a great sports enthusiast — especially for hockey and baseball. It's his job to keep the back of the room in trim.

Lucille Friesen

Lucille supplies plenty of competition for Gracie in obtaining those high marks. Her best pals reside in the Grade X room. Where does she get all those attractive clothes? Pet peeve — the boy who sits behind her.

Waldie Klassen

Waldie comes from a farm just outside of town. That's why he must keep up on all the latest in scientific farming. Since school is important, Waldie works hard manages fairly well, too.

Bernice Buss

Bernice is a conscientious student, who, in her spare time, works in her father's store, and in addition finds time to skate and baby-sit. She and Gerry have much to discuss.

Grade IX-I

Frank Koslowsky

Frank enjoys skating, hockey, baseball, listening to the radio, reading, — and homework. It's quite a job keeping his brother Martin in trim, or is it the other way around?

Erna Andres

Erna comes from Friedensfeld. She is quiet and rather shy, but often knows the answers. Her homework is always done. Her future is undecided, but whatever it will be, Erna will do justice to it.

Margaret Wiebe

"Marge" is one of our striking brunettes. There aren't many things that leave her speechless — except making speeches. Her ambition is undecided.

Edmer Loewen

Edmer is tall and has that athletic physique. He came back to school after a two-year absence. A hardworking fellow, both in school and out, he is a definite asset to our class.

Thelma Funk

"Thel" is blonde and vivacious. That smile is contagious. Since her interests lie in the field of flying, her ambition is to become a stewardess.

David Dyck

David comes from Mitchell, but he boards in town. Recess often shows what's on the other side of his quiet reserved nature. Those eyes occasionally get that dreamy, far-away look.

Francis Barkman

Tall, blonde, blue-eyed, slim — need more be said? She is our second term Council rep. Fran enjoys school, in particular Literature and Composition. Stenography is her goal.

LaVern Loewen

LaVern considers hunting and hockey more refreshing than studying literature. Because he's a willing worker, he frequently helps his dad. He is a pleasant, congenial chap.

Martin Koslowsky

Mathematics is his specialty. This should help him fulfill his ambition of being a bookkeeper. He believes in making himself heard, as well as seen.

Gracie Kliewer

Who says that good looks and brains don't go together? Gracie is the top-ranking Grade IX student. Skating, mystery stories, playing the piano, and listening to Liberace, are her favourite out-of-school activities.

Elmer Barkman

Elmer is an ambitious worker who always has his homework done. He has a quiet, even temperament. His interests — all kinds of sports. He is interested in office work.

Mona Dulder

Mona is shy, dainty, and demure. However, she is lots of fun when you know her personally. German is her specialty. She would like to be a private secretary some day.

Norman Friesen

Though his hair is red, his temper doesn't often show. "Carrots" likes Mathematics and Art, and is an ardent baseball fan. He delivers papers after four — "Free Press", of course.

Ernest Doerksen

Ernie sports those flashy sweaters. He isn't particularly fond of English and History, but then, these aren't needed by radio and T. V. technicians, are they?

Brian Kliewer

Brian is our up-and-coming politician. He enjoys those arguments with the teacher. Besides having had experience as Council rep., he has served on the Literary Committee. He is a trombonist in the Boys' Band.

Margaret Dueck

Frequent giggles emerge from her corner of the room. Besides being tall, blonde and blue-eyed, she is a bookworm and a good student. She hopes to see Europe some day.

Hans Peter Jacobi

Peter came from Germany just before Christmas and joined our class in January. Though English is his problem, he is showing very good progress. Even now he often explains mathematics to some of the other boys.

Betty Dueck

"Still waters run deep." Though she is quiet, she has little trouble turning out those 90's in Grammar tests. Margaret is her twin. Alfrieda, from upstairs Grade IX, is her good pal.

Richard Letkeman

That innocent expression and sweet smile can be quite deceiving. He is usually planning something. Ritchie dislikes homework, but manages to get it done, when his busy schedule allows it.

Harold Funk

Harold is a friendly, reliable person, whose aim it is to be a road engineer or a pilot. He holds a part time job — delivering papers after four.

Kenneth Letkeman

Ken likes Shop and watching T. V. Those commercials provide time to get some more of that homework done. Too bad there aren't more commercials. He occasionally helps his dad.

Grade IX-2

Reading across, left to right: Neddy Smuk, Sophie Melnyk, Alvin Steingart, Lois Wiens, Peter Vogt, Deanna Enns.

Irene Wiebe, Larry Tarasenco, Agnes Oswald, Willie Nickel, Loreena Penner, Ray Wiebe.

Charlie Penner, Alfrieda Klassen, Peter Wiebe, Marjorie De Foort, Daniel McNeil, Margaret Thiessen.

Eugenia Derbowka, Mervin Unger, Rosie Friesen, Gordon Schellenberg, Helga Warkentin, Reg. Toews.

Roman Pilypuk, Arnold Reimer, Betty Reimer, John Wohlgemuth, Bob Schellenberg.

Grade IX-2

Neddy Smuk

We like our little plucky and polite, Neddy. His big ambition just now is to raise some marks considerably. He may operate a Steinbach-Warroad express line some day.

Sophie Melnyk

Sophie is the lassie that loves the good old western songs. She likes embroidery, she likes Eugenia, and she likes nurses. Her favourite expression is "Oh Man!"

Alvin Steingart

If the neat little freckles of Alvin Einstein Steingart would cooperate a bit more, what a lovely Jack Canuck tan he would sport! Alvin likes work and he likes people, and his quarrels with Mervin are always quite friendly.

Lois Wiens

Solving for x, ranking highest in class, and volunteering for any job that needs to be done, are just "matters of course" with Lois. She's a natural for the camera.

Peter Vogt

Peter loves music, curling, swimming, and school but maintains that — "I don't love girls" — yet. He will be a doctor but could be an actor.

Deanna Enns

Some day you'll pick a "best seller" off the shelves and find the author to be Deanna Enns, if she has not changed her name. She has the vocabulary and the ambition to be a good writer.

Irene Wiebe

Irene is always listening when she can spare the time. Quite frequently she finds that she can spare it. She likes everybody and everybody likes her.

Larry Tarasenko

The mechanical engineering student gets ready. He knows Grade IX comes before university. Meet Larry in big power construction jobs seven years from now.

Agnes Oswald

Agnes is a person who does not like to argue. She gets along quite well without disagreements. Friedensfeld has sent us a fine student who cares about her work.

Willie Nickel

He can "coin" jokes and make mathematical hurdles. He cannot always figure out, how others can figure it out. His will power returns to him afterwards.

Loreena Penner

"Where there's a will there's a way", and a will there is. She beats many a student when it comes to maths. She believes in the old virtue of getting assignments done properly.

Raymond Wiebe

Ray has an array of titles: the artist, the giant, the all around student and rugbyist. His future plans are not exactly mapped out yet, except that a good general schooling shall come first.

Charlie Penner

Charlie is made up of a vast amount of mirth, girth, and fun. He wears steel heels that click to 7/4 time ordinarily, and 2/4 after rugby. Charlie is a good salesman.

Alfrieda Klassen

We have a petite, and up-and-coming black-haired artist. Her name should have been Lois, or maybe Alfrieda Rembrandt. Grade IX seats are too big for her.

Peter Wiebe

Peter knows most of the answers. If he cannot express them the way you would, well he expresses them. Being quite a distance out of town, Peter "makes" the Piney, drift or shine, most of the time.

Marjorie DeFoort

Marjorie is our little bookworm from Giroux. She doesn't go for arithmetic so much but you cannot blame her — she never invented it.

Daniel McNeil

Dan has long thought on the matter of the teacher shortage. Chances are he will come up with a solution. Dan reads so much that Spelling "almost" suffers. "Ah skip it" and "dare" are his favourite expressions.

Margaret Thiessen

South Junction may send us more fine students like Margaret. Miss Thiessen likes reading and people, and she loves a challenge. Well, that's enough to make good, isn't it?

Eugenia Derbowka

Her laugh is just like music. It lingers in the heart. And where its melodies are heard. The ills of life depart. How's that for a prospective, vivacious nurse?

Mervin Unger

Mervin used to play the harp with a rubber band, but he doesn't any more. Mathematics comes natural with him. He plays dodge the ball in rugby.

Rosie Friesen

Little Miss Rosie has a sweet little undetected "lithp". She sails on the ice as well as in Spelling and German. There's really nothing she cannot do.

Gordon Schellenberg

Meet the twinkle-eyed live wire of our class. He's a "guy" that will go places. Arnold thinks he's good at jumping — to conclusions.

Helga Warkentin

Helga is rather prominent in the class. Her giggle is contagious; her jokes are rich; her marks are good; her day-dreaming eyes —.

Reginald Toews

"Shorty" looks down on all of us from "up there", and queries "How's the weather down below?" Well, we look up two yards to a congenial smile and shout: "How rare the stratosphere!"

Roman Pilypuk

Roman of course won't tell us, but he's getting ready for something. Neddy knows, but he would not tell either. Maybe it's dentistry! Ouch! Well the Conservatives may soon be in need of him.

Arnold Reimer

Arnold has too many hobbies to be able to pick a favourite. Maths is one of them, cartooning is another, and radiating a pleasant and willing disposition is surely a third. His ambition really is to become a "sigh-chologist".

Betty Reimer

Here trains the future secretary of the Premier or maybe of the Prime Minister. She doesn't mind asking questions. She likes sports and should have joined the Olympics to represent Canada.

Johnny Wohlgenuth

Farming is going scientific and Johnny knows it. That's why he studies. When you hear "You're cracked" then Johnny is not far away.

Jake (Bob) Schellenberg

Bob likes to sketch Hitler, Bismark and Borgia from Italy. He's a good-looking little mixer. You can call him Jake or you can call him Bob, but you can be sure that he'll do the job!

U.N. Seminar Report

July 12 - 16, 1955 saw approximately 110 young people from high schools in Manitoba and Northwestern Ontario converging on the Fort Garry campus of the University of Manitoba for the third annual United Nations Seminar. Sylvia Rieger and I had the privilege of representing the S.C.I. at this Seminar.

The Seminar was sponsored by the Winnipeg Branch of the United Nations Association in Canada and by the Department of University Extension and Adult Education of the University of Manitoba.

The purpose of the Seminar is to teach young people of Canada about the work of the U.N. in the world today, and to equip

them to further the work of the United Nations.

Lectures on the Work of the U.N. were given by various well-informed speakers, twice daily. One of the main speakers at the Seminar was Mrs. A. L. Caldwell, B.Sc. who was one of the members of the Canadian delegation to the eighth General Assembly of the U.N.

Through the lectures and the discussions which followed, we learned that the United Nations is seeking to prevent a World War by ridding the world of the four "germs" of war: hunger, disease, poverty, and ignorance.

Gerald Reimer.

Extra - Curricular

Yearbook Committee

Standing: Mervin Brandt, Donald Mantie, Elsie Wedel, Deanna Rieger, Mr. John Peters, Clarice Bartel (treasurer), Lois Wiens, Brian Kliever.

Sitting: Gerald Reimer (advertising manager), Sylvia Rieger (editor), Pat Mueller, Edmer Reimer, (business manager), Arlyn Reimer, (secretary), Virginia Brown, George Rieger.

First Term Student Council

Standing: Donald Mantie, Brian Kliever, Marjorie Steel, Martha Block, Lorraine Regier, Gordon Krue-tzer, Travis Reimer.

Sitting: Gerald Reimer (vice-president), Edmer Reimer (president), Sylvia Rieger (secretary), Shirley Rempel (treasurer), Loreena Penner, Mr. Jacob Peters.

Social Committee

Standing: Marianne Kroeker, Mr. M. Myros, Henry Pankratz, George Rieger, Mr. J. Wedel, Lucille Friesen.

Sitting: Gerda Reimer, Raymond Loewen, Martha Block (convenor), Henrietta Reimer, Alvin Steingart.

Inset: Martha Block (1st term convenor).

Social Committee Report

The Social Committee has enjoyed planning the socials and they in turn have been enjoyed by the students. "Hallowe'en, Hallowe'en, Jolly Hallowe'en!" was the theme of our first social. The evening consisted of a short skit and various games among which was the side-splitting performance of commercials. After a delightful lunch the social ended, thus allowing the students to venture out into the haunted night.

Another social was the Christmas party. Due to a very busy pre-Christmas week, the social took place after the last performance

of "The Lost Carol." Gifts, Christmas carols and confectionery were the main course of the evening.

On February 17, we enjoyed a skating party which was complete with hot dogs, fine music, and a warm stove. The highlights of the evening were a broomball game and a girls' hockey game.

The close of the school year concludes the committee's various duties such as provoking our students to laughter and filling their stomachs with delicacies.

—Martha Block

Literary Committee

Standing: Charlie Penner, Johnny Barkman, Gordon Kreutzer, Glenn Klassen.

Sitting: Joyce Smith, Shirley Rempel, Miss N. Rempel, Pat Mueller (convenor), Hildegard Enns, Gracie Kliewer.

Inset: Pat Mueller (1st term convenor).

Literary Committee Report

The Literary Committee has enjoyed a successful year. We have completed two major projects.

In November we organized a Literary which we presented to the student body. First on the programme was a debate. After weighing the arguments of the speakers carefully, the judges agreed that "Education Increases Happiness." The debate was followed by a contest and a vocal trio. The main item of this programme was the S.C.I. interpretation of Sir Walter Scott's poem "Lochinvar". This bold, daring, young knight, with broadsword in hand, provoked the audience to constant laughter. Even though we realized no financial gain from this literary, we certainly tabled it as a success.

During the second term we were faced with the difficulty of selecting our spring play. Finally teachers and students agreed upon presenting J. M. Barrie's "The Admirable Crichton." Since three of the four Acts of this play had different settings, much addi-

tional work was required. Then too, the stage was enlarged, and new, movable walls were installed. Mr. John Peters consented to overhaul the stage and build the stage properties.

The play is a satirization of the class distinctions which were preserved in England. The satire plays continually upon the conceit of Ernest Woolley (Richard Barkman), the futility of Lord Loam (Travis Reimer), and the servility of Crichton (Glenn Klassen). Included in the cast were Lord Loam's three daughters, Agatha, Catherine and Mary Lasenby (Joyce Smith, Grace Reimer, and Pat Mueller), the Loam servant, Tweeny (Hildegard Enns), the athletic clergyman, Treherne (George Rieger), and the arrogant Lady Brocklehurst (Martha Block) and her son, Lord Brocklehurst (Jake Epp). The audiences were impressed with the elaborate stage settings and the acting ability the characters presented.

The committee was pleased with the results obtained from each literary undertaking.

Collegian Staff

Standing: Marjorie Steel, Gilbert Friesen, Edmer Reimer.

Sitting: Shirley Rempel, Henrietta Reimer (editor), Mr. N. Toews, Pat Mueller.

Inset: Henrietta Reimer (1st term editor).

The Collegian Report

It is a delight to make a mental survey of the Collegian activities of the past year. The members of the staff have so willingly contributed their time and talents that it has been a pleasure to work with them. Industiously they have been writing articles to give students a glimpse of general activities of our collegiate. Articles which have been written are as follows: editorials, general news, sports, social, and literary activities, and last but not least, anecdotes by our faithful Pat. We trust that these articles have served to give our parents and fellow-citizens a true picture of the calibre and

standard of the students and school respectively. Now it is our pleasure to thank those who have supported our staff by faithfully reading the Collegian and expressing appreciation for our efforts. For a number of us in the staff it means farewell. This is the last year that we serve on a Collegian such as this. But we are confident that those who will serve on the staff in the future, shall not disappoint us. On the contrary, they shall present, each year, a bigger and better Collegian.

—Henrietta Reimer

Sports Committee

Standing: Mervin Brandt, Mr. H. Reimer, Thelma Funk, Peter Vogt, Mr. G. Reimer, Arlyn Reimer.
 Sitting: Joyce Smith, Raymond Loewen, Travis Reimer (convenor), Ernie Toews, Phyllis Penner.
 Inset: Mervin Brandt (1st term convenor).

Sports Report

The sports activities of the S.C.I. were beneficial from three standpoints—participation, enjoyment, and inter-school competition.

During the football season teams were organized and games taking up two recesses each were played. The all-star team which was chosen, proved itself in a number of games, winning all of them, including two against Goodwill High. The girls were less fortunate in their baseball games with Goodwill, winning one, and losing one. In two hockey games, played against our perennial rival, the S.C.I. team triumphed both times. The boys managed to come through with a 6-5 win in a thrilling game played in Grunthal. In a return game at the carnival, held February 17, Goodwill went down to a 6-1

defeat. Curling, as usual, captured much of the sports spotlight this year. There were seven rinks participating in the regular high school curling schedule. Again, this year a bonspiel was held in which Henry Pankratz and Ernie Toews captured the first and second events respectively.

Sports equipment was not lacking as the Student Council provided a substantial amount of money for that purpose. Three rugby balls and a volley ball were purchased. The school hockey team looked especially sharp this season attired in the uniforms, acquired with council funds.

Looking back, it seems quite evident that sports at the S.C.I. enjoyed a successful year in 1955-56.

I. S. C. F. Committee

Glenn Klassen, George Rieger (president), Sylvia Rieger, Mr. J. Peters.

Inter-School Christian Fellowship

The Inter-School Christian Fellowship of the Steinbach Collegiate Institute is part of a world-wide organization comprised of University and high school students, student nurses, and student teachers under the leadership of a large and capable staff. The aim of the Fellowship, "To know Christ and to make Him known", sets the pace for its various activities.

The importance of personal quiet time—concentrated Bible reading and prayer — and group Bible study, is emphasized as vital to knowing Christ. To make Him known, we are encouraged and instructed in our daily walk and talk to reflect Christ, that it may be said of us, as it was of Peter and

John, "and they took knowledge of them, that they had been with Jesus."

As a group of thirty to fifty, we have met weekly on Wednesday after four. Our program has included guest speakers, panel discussion, talks by fellow students, and a series of student-led Bible studies of the gospel of St. Luke, for which we divided into smaller groups. We have generally closed our meeting by separating into small groups for prayer.

Special events on our calendar were the fall social, complete with games, singing, testimonies and chili-con-carne, and a tally-ho, followed by a wiener roast in the snow. All students are invited to share in the aims, activities, and beliefs of the I.S.C.F.

The Lost Carol

The Christmas Cantata-Drama rendered this year was "The Lost Carol", a moving story of the events leading to the writing of the most beloved of all Christmas Carols, "Silent Night."

His wayward son has brought shame and bitterness to the name and life of Franz Gruber, former organist and choirmaster, so that he can no longer compose any worthwhile music. On Christmas eve the prodigal returns in penitence. The father's struggle to overcome his bitterness and forgive is aided by the pleas of the mother, the frank advice of the village choirmaster and by a vision in which appear the scenes of "The Prodigal Son", "The Good Samaritan" and

the "Nativity". The climax is reached when the father, waking from his dream, welcomes and forgives his penitent son and is rewarded by the recapture in his heart and mind of the music of the beautiful "Stille Nacht" which has been lost since the time when his son disgraced his home and name.

The part of Gruber was admirably portrayed by Glenn Klassen, Frau Gruber by Elizabeth Neufeld, the choirmaster by Travis Reimer, and the son by Reginald Toews.

The drama was directed by Mr. John Peters. Miss Norma Rempel was in charge of costumes. The Collegiate Choir was led by Mr. Ernie Friesen.

The Chief Needs of Our Town

Steinbach is a little town on the edge of the great Canadian prairies. It is just forty miles south-east of Manitoba's capital, Winnipeg. Though it is located in a farming belt, you need only go a few miles east to encounter forest and lake. The population of Steinbach is steadily increasing, and has now almost reached the three thousand mark. Already, in 1947, Steinbach had grown to the required population for it to become an incorporated town. Steinbach's rising prominence among the towns of Manitoba, is due to its progressive and enthusiastic spirit. Business is kept alive and attractive by the fine developments that have taken place in this field. The fine residences, lawns, and well-kept streets make Steinbach pleasant to visit and enjoyable to live in.

In spite of these fine developments, Steinbach is still in need of some civic improvements. On many of Steinbach's streets, there are no sidewalks yet and other provisions for pedestrians are not what they should be. The streets are fairly good, but to make them entirely satisfactory, many more should be paved. An improvement in telephone equipment is also made necessary by the rising importance of Steinbach business. This improvement has been promised, but time is needed to bring the plans to maturity. Another public utility which Steinbach needs, and which has been discussed for a long time, is waterworks and sewage disposal. This would solve water and sewage problems for individual home-owners and would supply a source of water to combat house fires.

Besides the needs mentioned above, every town must have places where the townspeople can play together and enjoy themselves. The specific needs of Steinbach along this line are a hockey arena and a swimming pool. Present conditions make it an ordeal to watch a hockey game. The town needs a place where the townspeople can gather to cheer on the home team, thus strengthening good will and cooperation among the people. Swimming is an excellent sport in which almost everyone can take part. This favorite summer sport should be encouraged by building a public swimming pool. This would not only give the "team" the pleasure of playing, but everyone could use the swimming pool for his own pleasure.

The cultural needs of Steinbach are also worth discussing. Every community should have places where the people can appreciate the cultural arts such as music and drama, and also a place where the young people can develop these skills. The greatest need in the field of education in Steinbach is a new Collegiate. A great demand for a high school education by the young people of the town has made this necessary. Next in importance to this development, I think is the need for a public library. I think it would be well used and appreciated by the people of Steinbach. Another need which Steinbach is facing is the need for an auditorium. In this auditorium the finer arts such as music, drama, and art could be appreciated.

The future of this little prairie town, Steinbach, seems bright and promising. Business is expected to rise as sharply as it has in the last few years. This would bring Steinbach added prosperity and would improve the general conditions in the town. The national importance of Steinbach has increased greatly in the last few years. If this continues, Steinbach can become a very important factor in the industrial and agricultural life of Manitoba, and even of Canada.

Glenn Klassen — Grade XI

Religious Periods

Our activities and studies of each week have found a fitting close in the Friday afternoon religious periods. Here, in the study of God's Word, in worship, in the challenge of messages from guest speakers, and in pictures presenting the need and work in many areas of the world, we have had fellowship together and turned our thoughts and hearts to the Creator and the things of God.

Guests have included Rev. William Thompson of the Latin America Mission. Miss Agnes Carmichael of Child Evangelism Fellowship, Mr. Lloyd Wiebe of Pacific Coast Children's Mission, Rev. John Koop of Sudan Interior Mission, Rev. Sherman Williams of Scripture Press, Rev. Allan MacLeod of Gospel Missionary Union, Rev. Wm. Peters, Stuartburn, Mr. Wilbert Loewen, Rev. Archie Penner, Rev. H. G. Rempel, Rev. Jacob Epp, Rev. Peter Martens, and others. The services of these men and ladies are deeply appreciated.

Activities

PLAY UP! PLAY UP! AND PLAY THE GAME!

This is the word that year by year,
While in her place the school is set,
Every one of her sons must hear,
And none that hears it dare forget.
This they all with joyful mind
Bear through life, like a torch in flame,
And falling, fling to the host behind —
Play up! play up! and play the game!

Ladies' Section of the Collegiate Choir

The girls' choir, under the direction of Mr. Ernie Friesen and with Miss Norma Rempel at the piano, presented an Easter Cantata during the last year. The choir also sang at the graduation exercises. Practices were held regularly once a week on Thursday afternoon.

Male Section of the Collegiate Choir

With the exception of a few boys all the students in Grades X, XI and XII took part in the mixed choir. Mr. Ernie Friesen was the director of the choir and Mr. Howard Reimer was the pianist. A few days before Easter, the choir presented the Easter Cantata "Peter and the Resurrection." This choir practised every Tuesday afternoon.

It gives me great pleasure to congratulate the students of Steinbach Collegiate on their remarkable achievements. I have been informed by my Colleague, the Hon. W. C. Miller, that your Collegiate has been doing excellent work. I am confident that the young generation around Steinbach will carry on the magnificent work of their elders, making the Steinbach community one of the best in the province.
